### **INFORMATION DISCLOSURE STATEMENT**

Dear Sir:

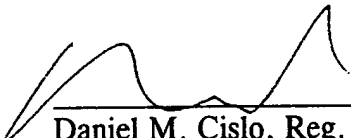

In accordance with 37 C.F.R., § 1.56, 1.97, and 1.98, disclosure is made of the following known related art listed in the accompanying Information Disclosure Citation, Form PTO-1449. Copies of these patents are believed to be available in Applicant's parent applications 09/971,319 (filed on 10/3/01) and 09/491,570 (filed on 1/26/00), which applications are incorporated by this reference. Any marks made upon submitted copies of such listed art should not be interpreted as emphasizing or indicating as relevant portions of such marked related art. Often, such marks are made on the original documents by unknown third parties and so are not applicable to the present invention.

Should there be any remaining or further questions, the Examiner is requested to please contact the undersigned directly. It is not believed that any additional fees are due. However, in the event additional fees are due, the Examiner is hereby authorized to charge Applicant's Attorney's Deposit Account No. 03-2030.

Respectfully submitted,

CISLO & THOMAS LLP

**SUPPLEMENTAL INFORMATION  
DISCLOSURE STATEMENT**

---

Dear Sir:

In accordance with 37 C.F.R., § 1.56, 1.97, and 1.98, disclosure is made of the following known related art listed in the accompanying Information Disclosure Citation, Form PTO-1449. Inclusion of such patents herein are solely for the purpose of satisfying Applicant's duty of candor to the Patent and Trademark Office, and should not be construed as any admission by Applicant as to the relatedness of the art(s) involved or as to the relevance of any of the citations.

Any marks made upon submitted copies of such listed patents should not be interpreted as emphasizing or indicating as relevant portions of such marked patent. Often, such marks are made on the original documents by unknown third parties and thus inapplicable to the present invention.

With the respect to the European Patent Office publication No. 10305119 submitted herewith in Japanese with an English translation for the abstract only, this publication appears to disclose a putter head shaped and weighted such that the putter can stand by itself without falling. The drawing also appears to disclose a putter head having a through part 7 vertically through the putter head having a diameter "a little smaller than" the diameter of a golf ball for picking up and carrying a ball as shown in Figure 7.

With respect to European Patent Office publication No. 07255886, submitted herewith in Japanese with an English translation for the abstract only, this publication appears to disclose a U-shaped putter head gauged to measure a golf ball diameter and to pick up and retain a golf ball within the sides of the U-shape. There also appears to be some claim to the resonance caused by the pitchfork shape of the putter head.

It is not believed any fees are due, however if any fees are required the Examiner is hereby authorized to charge Applicant's attorney's deposit account no. 03-2030. Should there be any remaining or further questions, the Examiner is requested to please contact the undersigned directly.

Respectfully submitted,

CISLO & THOMAS LLP
